

ZAMZOWS COMPOST TEA BREWING INTRUCTIONS

Items & Ingredients:

One 5-gallon bucket, One mesh strainer, One gallon of Zamzows THRIVE, One bag of Zamzows Tomato Boom, One bag of Zamzows Foundation

Step-by-Step Brewing

- 1 Pour 1/2 gallon (64 ounces) of Zamzows THRIVE into the 5-gallon bucket
 - 2 Add-in 4 cups of Zamzows Tomato Boom
 - 3 Add-in 4 cups of Zamzows Foundation
 - 4 Fill remainder of 5-gallon bucket with water
 - 5 Set 5-gallon bucket out in the sun for 3 days [stir thoroughly & often - at least 3X per day]
- After 3 days of brewing in the sun, your Zamzows Compost Tea is now ready for application
Apply 2 cups of your freshly brewed Zamzows Compost Tea around each plant
[any solid material left in the mixture is also fine to spread around the base of the plant]

To use this mixture as a foliar spray for plants, strain the mixture through the provided mesh strainer
Add one cup of the strained liquid to one gallon of water
Mix well and pour into a clean spray bottle
For maximum effectiveness, spray directly on your plant's foliage during the cooler parts of the day

Your Zamzows Compost Tea should be used completely as soon as it is finished brewing or it will go anaerobic [without oxygen], will start to emit a foul odor, and will become less effective. Do not try to store your brewed Zamzows Compost Tea
